

## 2017 Year-To-Date Formulary Additions and Deletions

Revised 10/01/2017

Health Choice Generations may add or remove drugs from our formulary during the year. If we remove drugs from our formulary, add prior authorization, quantity limits and/or step therapy restrictions on a drug, and/or move a drug at a higher cost-sharing tier, we will notify you of the change at least 60 days before the date that the change becomes effective. However, if the Food and Drug Administration deems a drug on our formulary to be unsafe or the drug's manufacturer removes the drug from the market, we will immediately remove the drug from our formulary.

**The tables below provide information about changes to our formulary that may impact you.** You can also view the most recent formulary changes on our website at [HealthChoiceGenerations.com](http://HealthChoiceGenerations.com). If you have any questions or concerns, please call us. We always want to help you.

This information is available for free in other languages. Please call our customer service number at 800-656-8991 (TTY 711), 8 a.m. - 8 p.m., 7 days a week.

**This table shows drugs that have been removed from the 2017 Health Choice Generations Formulary.**

Name of Drug	Description of Change	Alternative Drug	Alternative Drug Tier	Effective Date
